A novelty act is presented by the original De Voie Bros, who perform many amazing feats of skill and strength while suspended in midalr. For Monday, Tuesday and Wednesday Edison's startling subject, A Cry from the Wilderness, or A Tale of the Esquimaux and the Midnight Sun, will head the list. The scenes in this picture were taken from life in northern Alaska and are, to say the least, out of the ordinary. #### BREED THEATER.

The Fish Pirates, Feature Moving Picture.

With the presentation of the above named picture the Breed theater has one of the strongest pictures in the moving picture field. This is a thrill-ing story of illegal seining, which if persisted in would soon drain every lake and stream of the fish, so enormous are the quantities taken in this manner. A fish warden is appointed whose duty it is to stop this thing, and whose duty it is to stop this thing, and as a consequence there is no love lost between the fish pirates and the wardens. In this case the pirate has an attractive daughter who is in love with the fish warden and whose sence of duty is so great that he attempts to capture the young lady's father in the act of drawing the seine, but is injured by the accompanying pirates and tied to a solitary spile, where he is left to the mercy of the tide, which rises inch by inch until it reaches his mouth, when he manages to loosen the gas. when he manages to loosen the gag, and his cries for help are heard by the young lady in the case, who comes to his rescue. ### WHAT THE PAPERS SAY.

Back MacDonald Up.

The esteemed New Haven Register waxes narcastic at the Republican's praise of Highway Commissioner MacDonald. The Republican stands pat. Here is a highway commissioner who is being treated like a highwayman because he insists on taking a large view of things. The easy thing for him to do would be to surround each city and each considerable town in the state with a network of good roads leading to nearby points and ending in nothing. Every locality would then think he was the greatest highway commissioner that ever grew. Instead he has mapped out a com-

Instead he has mapped out a comprehensive scheme for the entire state. It means, when complete, real interurban communication, with trunk lines of state roads to be filled in later with improved local highways. That is what we ought to set for five million dolwe ought to get for five million dollars, not simply a few nice drives around the principal centers of population. That is what MacDonald is working for and as he is busy fighting off politicians who want to help him spend that \$5,000,000 the newspapers ought to hold up his bands and not

ought to hold up his hands and not criticise a big job only just begun. Brother MacDonald is an enthusiast Brother MacDonald is an enthusiast on roads, lives with them and dreams about them. He is doing a work which is worth many times what he and his automobile cost the state. If he were foxy, he would find out where the newspaper editors live and send a stone crusher and a steam roller to build a mile of road in front of each editor's house and then criticism would ston. But he isn't wasting the state's stop. But he isn't wasting the state's money by frittering it away on small schemes. The Republican asks fis brethren of the state press to talk with him before saying things about him. The chances are that they will think differently then.—Waterbury Republican
